ENGLAND'S COMMERCE WITH AMERICA

POSTERORY, 1891, BY THE NEW YORK ASSOCIATED

LONDON, Sept. 25.-Mr. Gladstone's coming deliverance at the Liberal Federation meeting is invested with further imrance by the authorized announcement that he intends to review Lord Salisbury's foreign policy and declare what his own will be if he should again be placed in power. The Federation proceedings are not ikely to astonish the world with any startling variation from the cut and dried programme, but if expectation proves cormemorable by a statement of foreign policy committing the Liberals to a line of action directly opposed to that of Lord Salisbury. Mr. Morley has already declared that the next Gladstone administration will ac-

Mr. Gladstone advocates he closest harmony among the Balkan States, repudiates Lord Salisbury's diplomany as tending roward the supremacy of Bulgaria over the other States, and adds that he feel warmly with the lately subcied populations of Southwestern Europe. CHINA'S REPORT TO EUROPE.

THE CELESTIAL GOVERNMENT GIVES AN ACCOUNT

Of the Efforts It Has Made and Shall Make to Suppress Disorders-Revolutionary Activity of the Secret Societies-Arm and Ammunition Seized.

LONDON, Sept. 25 .- The following is a ummary of an official Pekin cable dispatch received Monday and handed to the Foreign Office authorities Tuesday: Specific is have been offered to the treaty Powers by China as compensation for the loss of life and property at Wuhu, Wusuch, Tanvang, Wooseih, and other places where disorders have occurred. Four leaders of the rioters have been executed and 21 have been banished. Five mandarins have been adjudged culpably remiss in not adopting measures to preserve order, and have been reported to the Throne for punishment. The Imperial Government, recognizing its entire responsibility for the preservation of order at the treaty ports and for the protection of missionaries in the interior, has ordered the Viceroys of Chihli and Nanking to dispatch the Northern and Southern squadrons to patrol the Yang tse Kiang and to afford protection wherever the life or property of Europeans is still apparently threatened. Though rumors of further trouble still excite uneasiness in certain places, the Government has no doubt of its ability to cope effectively with attempts at fresh breaches of the peace, whether from the operations of secret societies or as the result of local or accidental circumstances. The examinations held last month at Nanking, Woochang, Nanchang, Hangchow and Foochow ended without the disorders often attendant on the assembling of so

MILLS WORKING FOR OFFICE. CANADA BOUND DOWN

In Foreign Trade Relations by Treaties of Great Britain.

SHE WANTS COMMERCIAL FREEDOM

England Asked to Renounce Treaties With Germany and Belgium.

PERSONAL TELEGRAM TO THE DISPATCH. OTTAWA, Sept. 25.-In the Senate to-day Premier Abbott moved an address to the Government asking that the British Government take steps to renounce and terminate the effect of certain provisions in the treaties with the German Zollverein and with the Kingdom of Belgium. Since 1882 the British Government has consulted the interests of Canada in making new treaties, but the two herein referred to place Canada in a position which precludes the possibility of her negotiating any trade arrangement with any foreign country in which there is a discrimination against either Germany or

Belgium.

The object of the resolutions is to draw attention to certain stipulations in the ex-isting treaties with Belgium and with the German Zollverein, ordinarily referred to as the "most favored nation" clauses, which are extended to other countries whose commercial treaties with Great Britain contain a "most favored nation" clause, and which apply to British colonies.

CANADA BOUND DOWN. By article 15 of the treaty with Belgium, entered into in 1862, Canada is compelled to admit all articles, the produce or manufacture of Belgium, at the same or at no higher rate of duty than is imposed upon similar articles of British origin; and in the treaty with the German Zollverein, entered into in 1865, it is stipulated that the produce of those States shall not be subject to any higher or other import duties than the higher or other import duties than the produce of the United Kingdom, or any other country, of the like kind, and that the exports to those States shall not be sub-jected to any higher duties than exports to

the United Kingdom.
It is contended that these provisions in foreign treaties are incompatible with the rights and powers subsequently conferred by the British North American set upon the Parliament of Canada for the regula tion of the trade and commerce of the Dominion, and that their continuance in orce tends to produce complications and

MORE MARKETS NEEDED.

The address further says: Your me-morialists desire also to point out that the immense resources of the Dominion in its facility for the growth of food and material, its minerals, its fisheries and its lumber, require for their profitable development the arge practicable extension of its markets, nore especially in countries whose native supply of such production is limited, while its rapidly developing manufacturing in-dustries demand large and increasing sup-plies of raw material.

It is pointed out that among the countries with which an interchange of traffic takes place the British Empire holds the highest rank in amount, while the trade of the Dominion with the United States is second only to that with the British Empire, and its development and extension of great importance. In view of these facts, Premier Abbott trusted the British Government would abrogate the application of these treaties to Canada. As Canada now stood she could not extend her commercial relations with the rest of the orld, because by the treaty Great Britain had entered into with Germany and Bel gium she had promised that none of her colonies would discriminate against those

NO INDUCEMENTS TO OFFER. The fact is Canada was deprived of offer ing any inducement to the West Indies, reciprocal trade arrangements. Mr. Abbott thought the scheme of the Federation Trade League of the British Empire a very pretty theory, but he would require some more substantial proof of its practicability before he would accept it as within the range of

probabilities or even possibilities.

He gave emphatic denial to the statement out from London to-day that before ne had framed his resolution regarding the abrogation of the application of these treaties to Canada and her exemption from their operations, he had consulted Lord Salisbury. It was the desire of the Canadian people to secure the removal of the restrictions which these treaties im-posed on the trade of the Dominion.

The discussion will be carried into the House of Commons, where, it is understood, an amendment will be moved to give Canada the right to make her own commer-

CHANDLER, O. T., Sept. 25.—Governor steele arrived here yesterday afternoon. As soon as his presence became known arge crowds gathered around him to inquire when the town site would be opened. He addressed the people in a brief speech. He said the surveyors were hastening their work as rapidly as possible, but he could not say when it would be completed. It is expected the opening will take place tomorrow at noon. The people are scattered about so that it is impossible to make a very close estimate as to their number. Enthusiastic men placed the number at 5,000, but not including the military, 1,500 ems to be a fair estimate.

WHEREAS It has been the settled policy of the Democratic party of Allegheny county to keep the judiciary non-partisan as far as possible, that the administration of the law may be pure and freed from partisan feeling, and that the people's causes shall be decided on their merits under the law, rather than by party prejudices, and,

Resolved, That to carry out the said policy it is the sense of this committee that it is unwise at this time to nominate candidates for District Attorney and Prothonotary. The resolutions were adopted unanimou

The resolutions were adopted unanimously, though preceded by a discussion of considerable length and force.

"The Democrats have always favored a non-partisan judiciary," said Chairman Brennen, last evening. "Besides, this was but a just indorsement of Governor Pattison's action. As chairman of the committee, I was instructed to prepare an address, saying why the action taken was deemed ad-visable. The Democratic Committee will meet Saturday, October 3, to nominate del-egates to the Constitutional Convention, and it that time the matter may be more fully discussed.

"In discussing the situation we concluded that the nomination of a District Attorney meant defeat for Judge Kennedy and the election of Fetterman. The so-called straight out movement is a protest against the appointments of Governor Patterson and against the recognition of Democrats on the bench of the county."

A CONFERENCE IN SESSION.

Annual Meeting of the A. M. E. Church Fathers in Allegheny. . The annual conference of the Western Pennsylvania district of the A. M. E. Church was commenced yesterday in Brewers' Chapel, of the A. M. E. Church, corner of Hemlock and Boyle streets, Allegheny, Bishop D. A. Payne presided, and R. H. Morris acted as secretary. The morning session was devoted to hearing a few reports

and to the enrollment of members. In the afternoon reports from the various churches comprising the district were received and were of an encouraging character. Rev. C. S. Smith, Chairman of the Sunday School Department, made an inter-esting address on the work over which he had supervision. He stated that at the col-ored Seminary in Tennessee there were 150

pupils and a surplus in the treasury of \$30, 000. The meeting will continue to-day. We Do Upholstery Work. IN TO-MORROW'S ISSUE.

This story is in Mr. Fawcett's most happy style and the plot is most ingenious and affords a succession of surprises. He has produced in this work a new and remarkable character in fictional literature in a fin de riecle sort of king, who rules over a mythical German realm. A rich New York gentleman is the hero of the story: a typical American girl is the heroine, while the calculating mother of the latter is the personification of American push. It is the most notable pro-

ng Meeting of an Allegheny Councll Committee-City Hall to Be Repaired at a Cost of \$50,000-Some Reform Measures Adopted.

The meeting of the sub-Property Committee of the Committee on Public Works, of Allegheny, last night was enlivened somewhat by a tilt among the members. The meeting was presided over by Mr. Koehler, and the first business taken up was the question of re-leasing different houses located on city property. It was reported that the Allegheny Heating Company, which has a building located on city property at the north end of the Sixth street bridge, had refused to pay the in-creased rent asked by the city. It was recommended that the Controller take the necessary steps to procure the rent.

Mr. Lowe suggested that the Chief of
Public Safety be asked to have all bill

boards removed and kept away from the fences about City Hall. This suggestion was adopted. Chairman Koehler called in the new mar ket clerk, John Francis, and began a cross examination relative to his duties. Mr Rippey interposed an objection to this nethod of procedure, saying that Mr.

Francis was only a subordinate answerable to the Chief of Public Works and that official was responsible to the committee and not the subordinate. Chairman Koehler claimed that his examination was only to bring out certain things which would show that the market elerk was overworked and should be reme died. Mr. W. M. Kennedy agreed with the Chairman.

Mr. Wertheimer said that the committee

was trying to rule and regulate the em-ployes of the Department of Public Works and this was not right, and Mr. Francis was asked no further questions. Chief Ehlers, however, did explain that he had laid down a set of rules for the market clerk to fol-The question of remodeling City Hall

was next taken up and the plans prepared by Chief Ehlers, embracing a cost of \$50,-000, were adopted. The Chief was ordered to employ an architect to make out the specifications and then to advertise for On motion of Mr. Wertheimer the Chief was instructed to advertise for bids for painting the Market House, and the suggestion of Mr. Lowe, that the work be done by union painters, was adopted.

Mr. Elphinstone said that access to the books had not been denied them. but a desk had been set aside and every facility given Hastings and his friends to examine the books and documents and enable them to prepare a statement.

PERSECUTED BY CHICAGO GREEKS.

Missionary Among His Country Mysteriously Disappears. CHICAGO, Sept. 25 .- Some time ago Anton Behannesey, a boy of 13 years, came to this city from Damascus, Syria. He had been converted to Christianity, and took it

upon himself to do missionary work in the Greek colony in this city. This finally got him into trouble, and he was beaten by his unwilling listeners.

He disappeared on Wednesday evening, and nothing has been seen of him since.

His friends fear he has met foul play. Two of his relatives left for Greece at about the time of his disappearance, and are to sail from New York to-morrow. There are sus-picions that he has been kidnaped by them.

EVERYONE SNEEZING.

Colds remarkably prevalent, Will the Grip return? Dangers of Pneumonia.

Have you noticed the unusual number of colds possessed by your acquaintances this year? There seems to be no particular reason why the Fall of this year should be more trying than usual, but, nevertheless, it is a fact. Those who know something of these matters say that this extraordinary prevalence of colds is the forerunner of another visitation of the Grip. Whether it may turn out so or not, a thing everyone should do is to get rid of a cold as soon as possible on account of the danger to which a person with a "little cold" is exposed. Pneumonia nobody wishes to face, and it is no exaggeration to state that eighty percent of deaths from this cause could have been averted if the colds out of which they grew had been cured.

By far the best method of ridding oneself of a cold is to take a little pure stimulant in water and keep warm after having done so. The greatest care and prompt measures should be taken at the slightest sign of the approach of pneumonia. If you have a tickling in the throat, tightness of the chest, pain in the head, a chilly feeling or pains throughout the body, immediately use some pure stimulant to promote the circulation and avert the catastrophe. It should be particularly borne in mind that to be of the required value, the stimulant (whiskey preferably) must be pure, and Duffy's Pure Grip return? Dangers of Pneumonia.
